

# CONTENTS

## VOLUME 1

### SECTION 1: PREAMBLE

- 1. Introduction ..... 3**  
*V Mohan, BB Tripathy*
- 2. Landmarks in the History of Diabetes ..... 6**  
*BB Tripathy*  
The Ancient Era (Up to 600 AD) 6; Medieval Period (600-1500 AD) 7; Advent of the Modern Era (1500-1750 AD) 7; Progress of Modern Era 8; Clinical Types of Diabetes (Classification) 14; Epidemiology 17; Complications 18; Diabetes and Pregnancy 22; Control and Complications 23; Animal Models for Study of Diabetes 23; Epidemiology of Diabetes—Indian Scenario 26; Newer Developments in Diabetes Treatment 27

### SECTION 2: PHYSIOLOGY AND METABOLISM

- 3. Intermediary Metabolism and Hormonal Regulation ..... 43**  
*NC Panda*  
Major Metabolic Pathways and Control Sites 43; Stages of Extraction of Energy from Foodstuffs 45; Recurring Motifs in Metabolic Regulations 46; Major Pathways of Metabolism and the Principal Sites for their Control 48; Hormonal Regulation of Intermediary Metabolism 55; Insulin 56; Glucagon 58; Epinephrine and Norepinephrine 59; Somatostatin 59; Glucocorticoids 60; Growth Hormone 60; Pancreatic Polypeptide 61; Fed State 61; Fasted (Post-absorption) State 62; Starvation 62; Prolonged Starvation 63; Diabetes Mellitus 63
- 4. Morphology of Pancreatic Islets ..... 68**  
*M Balaraman Nair*  
History 68; The Islets 69; Exocrine-endocrine Interaction 75; Conclusion 76
- 5. Insulin Biosynthesis and Secretion ..... 77**  
*PS Lamba*  
Organization of Islets of Langerhans 77; Islet Structure 78; Insulin Gene Expression and Its Regulation 78; Insulin Biosynthesis: Post-transcriptional Events 81; Fate of the Mature Secretory Granule 84; Glucose and Signal Recognition 86; Fail-safe Regulation of Insulin Secretion 88; Control of Calcium Level: ATP Sensitive K<sup>+</sup> Channels 88; Molecular Identity of the K<sub>ATP</sub> Channel 89; Insulin Secretion Via K<sub>ATP</sub> Channel Independent Pathways 90; Potentiation of Secretion by Various Agents 90; Second Messengers and the Regulation of Insulin Secretion 92; Effector Systems for Insulin Secretion 94; Insulin Secretion and Diabetes 95
- 6. Biology of Insulin Action ..... 106**  
*Sushil Jindal*  
Biological Firsts About Insulin 106; Structure-action Relationship of Insulin Molecule 106; Insulin Receptor 107; Postreceptor Events and Downstream Signaling 108
- 7. Anti-inflammatory and Anti-atherosclerotic Effects of Insulin—Effects Beyond Glycemic Control ..... 111**  
*Paresh Dandona, Devjit Tripathy, Sandeep Dhindsa*  
Introduction 111; Atherosclerosis 111

## SECTION 3: DIAGNOSIS AND CLASSIFICATION

- 8. Definition, Diagnosis and Classification ..... 121**  
*BB Tripathy*  
 Definition 121; Diagnosis 122; Classification 131; Modified Classification 136
- 9. Latent Autoimmune Diabetes in Adults ..... 141**  
*Devjit Tripathy, Leif Groop*  
 Definition: Clinical Characteristics 141; Pathogenesis 142; Chronic Complications in LADA 144; LADA in the Indian Population 144; Screening for LADA 144; Management of LADA 145; Newer Potential Therapies for LADA 145
- 10. Impaired Glucose Tolerance and Impaired Fasting Blood Glucose ..... 148**  
*Dinesh K Nagi*  
 Prevalence of IGT 149; Instability of IGT 149; Etiology and Pathogenesis of IGT 150; Clinical Implications of IGT 151; Risk Factors for Deterioration to Diabetes 151; Association with Cardiovascular Disease Mortality 152; Intervention Studies in IGT 152; Impaired Fasting Glucose 155

## SECTION 4: EPIDEMIOLOGY

- 11. Diabetes Mellitus in Developed Countries ..... 163**  
*Susana A Moran, KM Venkat Narayan*  
 Type 1 Diabetes 163; Type 2 Diabetes 165; Gestational Diabetes 167
- 12. Epidemiology of Diabetes in Developing Countries: The Scenario in Asia ..... 171**  
*A Ramachandran, C Snehalatha*  
 Scenario in South East Asia 171; Rising Prevalence of Diabetes 172; Risk Factors 174; Chronic Complications of Diabetes 176; Type 2 Diabetes in Children 177; Scenario in the Middle East Countries 177; Other Forms of Diabetes 178; Prevention of Diabetes 178
- 13. Epidemiology of Diabetes Mellitus in India ..... 181**  
*SV Madhu, PV Rao*  
 Type 1 Diabetes Mellitus 181; Type 2 Diabetes Mellitus 182; Impaired Glucose Tolerance (IGT) 188; Complications 189
- 14. Epidemiology of Diabetes in Indian and Other Migrant Populations and Special Groups ..... 197**  
*Venkata Ranga Rao Kodali*  
 Overseas/Transcontinental Studies 197; Migration within India 199; Other Migrants and Special Populations 200

## SECTION 5: ETIOPATHOGENESIS OF DIABETES MELLITUS

- 15. Etiology of Diabetes: An Overview ..... 205**  
*Ashok Kumar Das, BB Tripathy*  
 Type 1 (A) Diabetes Mellitus 205; Type 2 Diabetes Mellitus 207; Gestational Diabetes Mellitus (GDM) 209; Other Types 209
- 16. Type 1 Diabetes Mellitus: Pathogenesis and Metabolic Alterations ..... 210**  
*Eesh Bhatia*

Epidemiology 210; Pathogenesis of T1DM 211; Environment and T1DM 213; Initiation of Autoimmunity 215; Prediction of Type 1 Diabetes 217; Onset of Diabetes 218; Immune Intervention Trials 218; Metabolic Alterations in T1DM—An Overview 218

- 17. Pathogenesis of Type 2 Diabetes ..... 223**  
*BB Tripathy, Devjit Tripathy*  
 Glucose Homeostasis 224; Insulin Resistance (IR) 224; Impaired  $\beta$ -cell Function 232; The Natural History of Type 2 Diabetes 243
- 18. Insulin Resistance ..... 251**  
*RD Lele, AR Marita*  
 Concept of Hormone Resistance 251; Evolution of the Concept of Insulin Resistance 253; Molecular and Cellular Mechanisms in Insulin Signaling 254; Dietary Fat and Insulin Resistance 269
- 19. Endocrine and Metabolic Role of Adipose Tissue in the Pathogenesis of Diabetes Mellitus ..... 277**  
*Sushil Jindal, Sunil Gupta*  
 Leptin 278; Resistin 279; Tumor Necrosis Factor- $\alpha$  (TNF- $\alpha$ ) 279; Interleukin-6 (1 $\frac{1}{2}$ -6) 279; Adiponectin 280; Free Fatty Acids: Another Player for Insulin Resistance 281
- 20. Role of Intrauterine and Infantile Malnutrition in the Pathogenesis of Diabetes ..... 284**  
*Nishit F Shah*  
 Malnutrition and Diabetes Mellitus 284; Mechanisms Linking Malnutrition and Diabetes 286; Prevention of Diabetes 287
- 21. Biochemical Parameters and Hormonal Profile in Diabetes ..... 290**  
*C Snehalatha, Vijay Viswanathan*  
 Diagnosis of Diabetes 290; Glycosylated Hemoglobin (GHB) 293; Dyslipidemia in Diabetes 294; Serum Electrolytes 295; Kidney Function Tests 295; Insulin and Diabetes 297; Classification of Diabetes 300; Study of Hypoglycemia 301; Mode of Action of Drugs 301; Proinsulin and Insulin Ratios 302; Other Hormones Involved in Glucose Homeostasis 302; Hypoglycemia and Glucagon Secretion 302; Hyperglycemia and Glucagon 302; Leptin and Adiponectin 302; Glucagon-like Peptide (GLP-1) 303; Homocysteine 303; Quality Control 303
- 22. Pathology of Pancreas in Diabetes Mellitus ..... 306**  
*SJ Nagalotimath*  
 Type 1 Diabetes 306; Type 2 Diabetes 308; Other Specific Types of Diabetes 308

## SECTION 6: GENETICS AND IMMUNOLOGY

- 23. Genetics of Diabetes: An Overview ..... 319**  
*V Radha, V Mohan*  
 Genetics of Type 1 Diabetes 319; Genetics of Type 2 Diabetes 321
- 24. Immunogenetics of Type 1 Diabetes ..... 327**  
*Ramachandra G Naik, CB Sanjeevi*  
 Immunologic Aspects of Type 1 Diabetes Autoantibodies 328; Autoimmune Antibodies in Autoimmune Diabetes 328; ICA512/IA-2 Antibodies 329; Cellular Immune Response and Cytokines 330; Genetic Aspects of Type 1 Diabetes 331; Natural History of Type 1 Diabetes 333; Environmental Factors in Type 1 Diabetes 334; Possible Environmental Mechanisms 335

- 25. Monogenic Forms of Diabetes Mellitus and Maturity Onset Diabetes of Young ..... 341**  
*V Mohan, Ami Ritesh Sanghvi*  
 Definition of Monogenic Forms of Diabetes 341; Maturity Onset Diabetes of Young (MODY) 341; Other Monogenic Forms of Diabetes 347; Rarer Forms of Monogenic Diabetes 347
- 26. Studies on Genetics of Diabetes in Ethnic Indians ..... 349**  
*V Radha, V Mohan*  
 Familial Aggregation of Diabetes in Indians 349; Is Insulin Resistance Also Genetically Inherited in Indians? 350; Studies on Genes Related to Type 1 Diabetes 350; Studies on Genes Related to MODY in Indians 350; Studies on Genes Associated with Insulin Secretion in Indians 352; Studies on Genes Associated with Insulin Resistance in Indians 352; Studies on Genes Associated with Obesity in Indians 354; Studies on Genes Related to FCPD in Indians 354
- 27. Immunological and Genetic Studies on Different Clinical Types of Patients from India ..... 358**  
*CB Sanjeevi, A Kanungo*  
 Autoimmunity in Diabetes 359; Autoimmunity and Genetics in Indian Diabetic Patients (Types 1 and 2) 360

## SECTION 7: CLINICAL PROFILE

- 28. Type 1 Diabetes Mellitus: Clinical Features ..... 367**  
*Ashok Kumar Das, P Raghupathy, BB Tripathy*  
 Classes of Type 1 Diabetes 367; Distribution 368; Etiology 368; Natural History 368; Clinical Features 369
- 29. Clinical Features of Type 2 Diabetes Mellitus ..... 374**  
*SV Madhu, C Munichoodappa*  
 Types of Diabetes 374; Epidemiology 375; Natural History of Type 2 DM 375; Clinical Features 376; Complications of Type 2 DM at Diagnosis 378; Differential Diagnosis 378
- 30. Type 2 Diabetes in the Lean ..... 381**  
*Sidhartha Das*  
 Peculiarities in Clinical Profile and Mortality 382; Glycemic Status and Hepatic Carbohydrate Metabolism 383; Hepatic Microsomal Enzyme System and Glycemic Status 384; Hormonal Profile and Response 385; Biochemical Milieu Vis-à-vis Complications 386; Beta-cells and Autoimmune Status 388
- 31. Malnutrition Modulated Diabetes Mellitus ..... 391**  
*BB Tripathy, KC Samal*  
 History and Epidemiology 391; Distribution 392; Clinical Feature 392; Investigations 392; Immunological and Genetic Studies 394; Criteria for Diagnosis 395; Complications 395; Etiology and Pathogenesis 396; Management 398; Comments 398
- 32. Fibrocalculous Pancreatic Diabetes ..... 401**  
*V Mohan, G Premalatha*  
 Definition and Terminology 401; Historical Background and Prevalence 402; Clinical Presentation 403; Pathology 405; Investigations 407; Complications 409; Long-term Survival Analysis 409; Natural History 410; Management 410
- 33. Diabetes in the Young: The Indian Perspective ..... 415**  
*Eesh Bhatia, Vijayalakshmi Bhatia, PS Chatterjee*  
 Prevalence 415; Etiology and Pathogenesis 416; Clinical Aspects 419; Complications and Mortality 421; Management 422

- 34. Secondary Diabetes ..... 424**  
*V Mohan, S Uthra*  
 Diseases of Exocrine Pancreas 425; Endocrinopathies that Induce Diabetes 427; Other Endocrine Conditions Associated with Diabetes 432; Genetic Defects in Insulin Action 432; Genetic Syndromes Associated with Diabetes 434; Viruses and Diabetes 435; Drugs Causing Diabetes 436; Immune-mediated Diabetes 440; Secondary Diabetes in Children 440

## SECTION 8: MANAGEMENT

- 35. An Approach to Management of Diabetes Mellitus ..... 447**  
*Anoop Misra, Jasjeet S Wasir, Naval K Vikram*  
 Importance and Overview 447; Diabetes and Internist 447; Approach to Management 448; Principles of Therapy 450; Treatment Goals 452; Initial and Follow-up Evaluation of Diabetic Patients 452; Problems in the Management of Patients with Diabetes in India 453
- 36. Patient Education in Diabetes Care ..... 455**  
*Suman Kirti, MC Srivastava*  
 Objectives for Diabetes Education 455; Organization of Education Program 456; Methods of Diabetic Education 457; Evaluating Diabetes Education 459; Details of Programs Adopted for Education 460
- 37. Nutrition Management of Diabetes Mellitus ..... 463**  
*Rekha Sharma, Swapna Chaturvedi*  
 Basic Principles for Planning Diet for Diabetics 463; Nutrition Recommendations and Principles 465; Goals of Medical Nutrition Therapy 465; Realistic Diet Prescription Strategies 466; Other Nutritional Factors to Reduce Cardiac Risk 474; Meal Planning 474
- 38. Nutrition Management in Special Situations ..... 478**  
*Sonal V Modi*  
 Nutrition Management in Undernutrition and Obesity 478; Nutrition Management Through Journey of Life 484; Nutrition Management in Various Treatment Modalities 488; Nutrition Management in Various Life Situations 489; Nutrition Management in Complications of Diabetes 492; Food Labeling and Interpretation 500
- 39. Physical Activity and Yoga in Diabetes Mellitus ..... 504**  
*BK Sahay, Rakesh K Sahay*  
 Exercise in Normal Subjects 505; Exercise in the Management of Diabetes 508; Benefits of Exercise 508; General Principles for Exercise in Diabetes 508; Evaluation of the Patient Before Exercise 509; Exercise in the Elderly 510; Yogic Practices in Diabetes Mellitus 510; Risks of Exercise 511; Special Precautions 511; Role of Exercise in Prevention of Diabetes 512
- 40. Oral Antidiabetic Agents: An Overview ..... 515**  
*Ajay Kumar*  
 Historical Perspective 515; Classification 516; Future Perspective 517
- 41. Insulin Secretagogues ..... 520**  
*RV Jayakumar, Ajay Kumar*  
 Role of Insulin Secretagogues in Treatment of Type 2 Diabetes Mellitus 520; Classification of Insulin Secretagogues 520; Insulin Secretagogues and Cardiovascular Disease 525; Choosing the Right Secretagogue 526; Timing of Secretagogue Administration 527; Comparison of Various Secretagogues 527
- 42. Antihyperglycemic Agents (Insulin Sensitizers and Others) ..... 530**  
*Ajay Kumar*  
 Classification 530; Insulin Sensitizers (Metformin and Phenformin) 531; Insulin Sensitizers (Thiazolidinediones) 532; Alpha Glucosidase Inhibitors (Acarbose and Miglitol) 534; Newer Antihyperglycemics: Future Directions 535

<b>43. Insulin Therapy .....</b>	<b>539</b>
<i>Anil Kapur</i>	
History of Insulin Development 539; Insulin Manufacture and Formulation 540; Purification and Standardization of Insulin 541; Types of Insulin 542; Insulin Pharmacokinetics 544; Aim of Insulin Therapy 545; Indications for Insulin 546; Initiating Insulin Therapy 547; Insulin Regimens 549; Adjusting Insulin Dose 551; Factors Influencing Insulin Therapy 551; Complications of Insulin Therapy 555; Advances in Insulin Therapy 556; Safety Issues 560; Advantages 561; Advances in Insulin Delivery Systems 562; Myths and Concerns about Insulin Use in Type 2 Diabetes 563; Practical Tips 565	
<b>Animal Insulins: Current Status .....</b>	<b>569</b>
<i>KM Prasanna Kumar, C Munichoodappa, SR Aravind</i>	
Immunogenicity 569; Metabolic Effects 569; Skin Reactions 570; Availability and Economics 570	
<b>44. Short-term Monitoring of Glycemic Control .....</b>	<b>571</b>
<i>Suresh D Mehtalia, Premlata K Varthakavi</i>	
Evaluation at the Initial Hospital Visit 572; Monitoring Glycemic Control 572; Blood Glucose 576; Evaluating SMBG Systems 579; Self-monitoring of Blood Glucose 580; Continuous (Ambulatory) Blood Glucose Monitoring 583; New Monitoring Device Developments 584	
<b>45. Monitoring Glycemic Control: Long-term Parameters .....</b>	<b>587</b>
<i>Hemraj B Chandalia</i>	
Historical Aspects 587; Process of Glycation of Hemoglobin 587; Methodology to Estimate Glycated Hemoglobin 588; Methodological Problems, Selection of Method and Quality Control 589; Clinical Relevance and Application of Glycated Hemoglobin 590; Glycated Albumin and Fructosamine 591; Serum 1,5-anhydroglucitol 591	
<b>46. Monitoring Beyond Glycemic Control .....</b>	<b>594</b>
<i>Ashok Kumar Das, Stalin Viswanathan</i>	
Clinical Monitoring 595; Laboratory Monitoring 596; Organ Complications (Microvascular) 597; Organ Complications (Macrovascular) 600; Other Complications 602; Monitoring in High-risk Population 604; Summary of Comprehensive Diabetes Care 605	
<b>47. Current Status of Indigenous Drugs and Alternative Medicine in the Management of Diabetes Mellitus .....</b>	<b>606</b>
<i>Ashok DB Vaidya, Rama Ashok Vaidya, Sanjiv Shah, Subrata Sarkar, Nutan Nabar</i>	
Introduction and Background 606; Indigenous Drugs and Medicinal Plants 607; Pharmacology and Clinical Studies of Antidiabetic Medicinal Plants 608; Marketed Ayurvedic Formulations 615; Complementary and Alternative Medicine 615; Ayurvedic Prevention and Management 617; Dietary and Exercise Management of Diabetes 617; Indian Homeopathic Remedies 618	
<b>48. Transplantation in the Management of Diabetes Mellitus .....</b>	<b>625</b>
<i>Amy Olson, Ketan Goswami, Timothy O'Connor, Romesh Khardori</i>	
Indications and Patient Selection 626; Transplant Options 627; Living Donor Selection Criteria 627; Procedure 628; Nutrition after Transplant 629; Patient and Graft Survival 629; Effects of Transplant on Complications of Diabetes 631; Pregnancy and Pancreatic Transplant 633; Transplantation Associated Risks 634; Islet Cell Transplant 634	
<b>Appendix .....</b>	<b>A1–A8</b>
<b>Index .....</b>	<b>I1–I28</b>

## VOLUME 2

### SECTION 9: COMORBID CONDITIONS

- 49. Comorbid Conditions: Obesity and Dysmetabolic Syndrome ..... 641**  
*Hemraj B Chandalia, PS Lamba*  
 Definition and Significance of Comorbid Conditions 641; Tobacco Abuse 641; Obesity 642; Metabolic Syndrome (Multimetabolic Syndrome, Syndrome X) 648; Hyperuricemia 650; Hyperhomocysteinemia 650
- 50. Hypertension in Diabetes..... 655**  
*Sandhya A Kamath*  
 Etiology of Hypertension In Diabetes 655; Pathophysiology 656; Diabetic Nephropathy 657; Complications 657; Screening for Hypertension in Diabetes 657; Management of Hypertension in Diabetes 658; The Indian Scenario 662
- 51. Dyslipidemia in Diabetes ..... 664**  
*Subhankar Chowdhury, Kaushik Pandit*  
 Lipoprotein Physiology 664; Lipoproteins and Atherosclerosis 666; Nature of Dyslipidemia in Diabetes 667; Screening for Dyslipidemia in Diabetes 669; Treatment of Dyslipidemia in Diabetes 670

### SECTION 10: COMPLICATIONS

- 52. Diabetes Complications: Overview ..... 683**  
*SV Madhu*  
 Diabetes Exposure and Risk of Complications 683; Importance of Glycemic Control in Development of Chronic Complications 685; Mechanisms of Diabetic Tissue Damage 686; Cellular and Molecular Mechanisms of Hyperglycemia-induced Cellular Damage 687; Role of Oxidative Stress in Development of Diabetic Complications 690; Unifying Hypothesis for Diabetic Complications 692
- 53. Acute Metabolic Complications ..... 697**  
*Hemraj B Chandalia*  
 Diabetic Ketoacidosis 697; Hyperglycemic Hyperosmolar Nonketotic State 705; Lactic Acidosis 711
- 54. Hypoglycemia..... 721**  
*Siddharth N Shah, Shashank R Joshi*  
 Definitions 721; Introduction 721; Etiology 722; Pathogenesis 723; Clinical Features 725; Investigations 725; Differential Diagnosis 726; Course and Prognosis 726; Complications 727; Management 728
- 55. Acute Infections in Diabetes Mellitus ..... 731**  
*BK Das, PK Das*  
 Common Microorganisms Associated with Infections in Diabetic Patients 733; Urinary Tract Infections 733; Respiratory Tract Infections 733; Abdominal and Gastrointestinal Infections 734; Skin and Soft Tissue Infections 734; Rhinocerebral Mucormycoses 734; Malignant Otitis Externa 735; Foot Infections 735
- 56. Chronic Infections in Diabetes Mellitus ..... 737**  
*Samar Banerjee*  
 Secondary Factors 738; Chronic Infections 738; Hepatitis C and Diabetes 738; Diabetes Mellitus and Tuberculosis 740; Periodontal Disease and Diabetes Mellitus 742; HIV Infection and Diabetes 743; Rhinocerebral Mucormycosis

- 745; Cholecystitis 745; Chronic Pyelonephritis and Cystitis 746; Chronic Infections in Diabetic Foot 746; Fungal Infections in Diabetes 746
- 57. Macrovascular Disorders in Diabetes: Determinants and Risk Factors ..... 749**  
*Sidhartha Das*  
 Burden of Macrovascular Disease in Diabetes with Special Reference to Indian 749; Distribution and Profile of Atherosclerosis in Diabetic Versus Nondiabetic Persons 751; Likely Determinants/Risk Factors for the Development of Macrovascular Disease 751
- 58. Atherosclerosis in Diabetes: Pathogenesis ..... 756**  
*V Mohan*  
 Arterial Vessel Wall Structure 756; Pathology of Atherosclerosis 756; Fibrinolysis and Coagulation 757; Low Density Lipoprotein 757; Adhesion Molecules and Chemotactic Proteins 757; Early Atherosclerotic Changes in Diabetic Subjects 758; Inflammation 758; Plaque Rupture 758
- 59. Coronary Heart Disease in Diabetes ..... 760**  
*PC Manoria, Pankaj Manoria*  
 Coronary Heart Disease in Diabetes: Epidemiology and Role of Risk Factors 761; Metabolic Syndrome and Cardiovascular Disease 762; Clinical Presentation, Complications and Mortality 763; Prediabetes and Coronary Heart Disease 764; Primary Prevention of Coronary Heart Disease in Prediabetes 766; Primary Prevention of Coronary Heart Disease in Diabetes 767; Management of Coronary Heart Disease in Diabetes 769
- 60. Epidemiology of Coronary Artery Disease in Diabetes ..... 778**  
*OP Gupta, Tiven Marwah*  
 Epidemiology of Coronary Artery Disease—Global, Indian and in Immigrant Indians 778; Epidemiology of Coronary Artery Disease in Type 1 Diabetes Mellitus 780; Epidemiology of Coronary Artery Disease in Type 2 DM—Special Features 781; Impact of Diabetes on Coronary Artery Disease in Women 783; Impact of Diabetes on Coronary Artery Disease Mortality 785; Coronary Artery Disease in Type 2 DM having Diabetic Nephropathy 785; Coronary Artery Disease in Diabetes—Indian Studies 786; Coronary Artery Disease in Prediabetes 787; Prevalence of Pre-coronary Artery Disease Markers in Diabetes Mellitus 789
- 61. Non-coronary Cardiac Complications in Diabetes ..... 793**  
*Murlidhar S Rao*  
 Diabetic Cardiomyopathy and Heart Failure in Diabetes 793; Cardiovascular Autonomic Neuropathy in Diabetes 798; Sudden Cardiac Death in Diabetes 800
- 62. Diabetes and Cerebrovascular Disease ..... 802**  
*BC Bansal, MV Padma, JS Bajaj*  
 Diabetes as a Risk Factor for Stroke: The Evidence-based Studies 802; Diabetes Associated Other Risk Factors for Stroke 804; Pathogenesis of Stroke and Cerebrovascular Disease in Diabetes 804; Stroke Subtypes and Pattern of Vascular Disease in Diabetes 808
- 63. Peripheral Arterial Disease in Diabetes ..... 816**  
*Pinjala Ramakrishna*  
 Incidence and Comorbidity 816; Diagnosis of Peripheral Vascular Disease in Diabetes—Noninvasive Studies 819; Clinical Problems and Management 820; Medical Management 824; Surgical Management 825
- 64. Diabetic Foot Syndrome ..... 833**  
*SP Pendsey*  
 Epidemiology 834; Socioeconomics 835; Classification 835; Pathogenesis 836; Diagnosis 840; Management 840; Prevention 842
- 65. Pathogenesis of Diabetic Microvascular Complications ..... 846**  
*Vijay Viswanathan*  
 Morphologic Features 846; Mechanisms of Hyperglycemia-induced Damage 851

- 66. Ocular Complications in Diabetes** ..... 857  
*M Rema, R Pradeepa*  
 Mediators and Mechanisms of Ocular Damage in Diabetes Mellitus 857; Extraretinal Ocular Manifestations 860; Retinal Manifestations 869
- 67. Diabetic Retinopathy** ..... 877  
*P Namperumalsamy, Kim Ramasamy, Dhananjay Shukla, Vasumathy Vedantham, Chandramohan Kolluru*  
 Clinical Features 878; Classification 880; Prevalence of Diabetic Retinopathy—Indian Scenario 881; Pathogenesis 882; Evaluation 883; Management 885
- 68. Diabetes and Kidney** ..... 894  
*AL Kirpalani*  
 Epidemiology 894; Risk Factors for Diabetic Nephropathy 895; Predicting the Development and Progression of Nephropathy 896; Pathology 897; Pathogenesis 899; Pathogenesis of Histological Lesions 901; Clinical Course and Natural History 902; Management 905; Post-transplant Diabetes Mellitus (PTDM) 916; Other Renal Manifestations in Diabetics 917
- 69. Neurological Complications of Diabetes** ..... 923  
*Ashok Kumar Das, G Prasanth, Thomas Mathew*  
 Neurological Complications in Diabetes—An Overview 923; Diabetic Peripheral Neuropathy 923
- 70. Diabetes Mellitus and Gastrointestinal System** ..... 939  
*Subrat Kumar Acharya*  
 Diabetes and the Gut 940; Epidemiology of Gastrointestinal (GI) Symptoms in Diabetes 940; Diabetic Gastroparesis 940; Diabetic Diarrhea 942; Anorectal Dysfunction 943; Other Gastrointestinal (GI) Symptoms 943; Health Related Quality of Life Issues 944; Liver Disease and Diabetes 944; Nonalcoholic Fatty Liver Disease 945; Hepatocellular Carcinoma 945; Gallbladder Diseases 945; Diabetes and Pancreas 946; Therapeutic Modulation of Gastric Emptying 947; Gut Peptides 947
- 71. Skin Diseases and Diabetes** ..... 951  
*Sarita Bajaj, Ashok Kumar Bajaj*  
 Skin Markers of Diabetes Mellitus 951; Cutaneous Infections 957; Foot Infections 959; Miscellaneous Manifestations 959; Cutaneous Complications of Therapy 963
- 72. Bone Disease in Diabetes Mellitus** ..... 967  
*D Sudhaker Rao*  
 Pathogenesis of Bone Disease in Diabetes Mellitus 967; Bone Mineral Density in Diabetes Mellitus 969; Fractures in Diabetes Mellitus 969; Approach to a Patient with Diabetes for Bone Disease 970; Management of Low Bone Density and/or Osteoporosis in the Diabetic Population 970; Monitoring of Therapy 971; Special Circumstances 971
- 73. Rheumatological Manifestations of Diabetes Mellitus** ..... 974  
*Ramnath Misra, Prashant Aggarwal*  
 Hyperostosis 974; Diabetic Cheiroarthropathy (Limited Joint Mobility Syndrome) 975; Diabetic Muscular Infarction 976; Adhesive Capsulitis of the Shoulder (Periarthritis) 976; Neuropathic Arthropathy 976; Dupuytren's Contracture 977; Palmar Flexor Tenosynovitis (Trigger Finger) 977; Osteopenia 977; Carpal-Tunnel Syndrome 977; Gout 977; Osteoarthritis (OA) 977
- 74. Sexual Dysfunction in Diabetes** ..... 979  
*V Balaji, V Seshiah*  
 Physiology of Penile Erection 979; Etiology 980; Clinical Features 982; Clinical Evaluation 982; Psychogenic or Organic 983; Clinical Assessment 983; Vascular Assessment 983; Neurological Assessment 984; Hormonal Assessment 984; Treatment of Diabetic Erectile Failure 985; Sexual Problems in Diabetic Women 987

- 75. Impact of Glycemic Control on Complications of Diabetes Mellitus ..... 989**  
*Ashok Kumar Das*  
 Pathophysiological Effects of Hyperglycemia 989; Historical Background—Early Trials 990; Type 1 Diabetes Mellitus—Glycemic Control and Complications 990; Type 2 Diabetes Mellitus—Glycemic Control and Complications 992; Impact of Intensive Glycemic Control in the Critical Care Setting 994; Recent Trials 994; Recommendations for Glycemic Control 994; Hazards of Intensive Glycemic Control 995

## SECTION 11: DIABETES THROUGH LIFE AND EVENTS

- 76. Diabetes Mellitus in Neonates and Infants ..... 999**  
*PSN Menon*  
 Transient Neonatal Diabetes Mellitus 999; Permanent Neonatal Diabetes Mellitus 1003
- 77. Diabetes in Children ..... 1008**  
*Aspi J Irani*  
 Etiology 1008; Clinical Presentation 1011; Diagnosis 1011; Stages of Diabetes in Childhood 1012; Day-to-day Management 1013; Growth and Pubertal Development 1021; Diabetes Related Emergencies in Children 1022; Patient Education 1030; Psychosocial Aspects 1031
- 78. Diabetes in Adolescents and Young Adults ..... 1036**  
*PG Raman, N Sudha, V Mohan*  
 Types of Diabetes Seen in the Young 1036; Type 1 Diabetes 1037; Type 2 Diabetes in Young 1039; Maturity Onset Diabetes of Young (MODY) 1042; Fibrocalculous Pancreatic Diabetes 1043; Malnutrition Modulated Diabetes Mellitus 1043; Diabetes Secondary to Endocrine Disorders 1044; Genetic Syndromes and Diabetes 1044; Polycystic Ovarian Syndrome 1044
- 79. Diabetes in Elderly ..... 1048**  
*Radha Reddy, SS Rastogi, KM Prasanna Kumar*  
 Demographics of Diabetes in the Elderly 1048; Carbohydrate Metabolism in the Elderly 1049; Screening and Diagnosis of Diabetes 1049; Manifestations of Diabetes in the Elderly 1050; Common Geriatric Syndromes Associated with Diabetes 1050; Acute Complications of Diabetes in the Elderly 1050; Chronic Complications of Diabetes in the Elderly 1051; Treatment of Diabetes in the Elderly 1053; Management of the Elderly Diabetic in Special Situations 1056
- 80. Diabetes and Pregnancy (Gestational Diabetes) ..... 1060**  
*V Seshiah, V Balaji*  
 Fuel Metabolism in Normal Pregnancy 1060; Pathogenesis of Glucose Intolerance Developing during Pregnancy 1062; Fuel Metabolism in Diabetic Pregnancy 1063; Consequences of Diabetes on the Pregnant Mother 1065; Pregestational Diabetes 1066; Gestational Diabetes Mellitus 1066; Screening for GDM 1067; Management 1070; Follow-up of GDM 1076
- 81. Surgery and Diabetes ..... 1080**  
*KM Prasanna Kumar, Geetha K Bhat*  
 Metabolic Issues 1081; Effect of Surgery on Diabetes 1081; Morbidity and Mortality 1081; Preoperative Evaluation 1082; Preoperative Recommendation for Type 2 Diabetics on Oral Hypoglycemic Agents (OHA) 1082; Type 2 Diabetics on Insulin 1083; Surgery in Type 1 Diabetic 1083; Moderate Control of Diabetes 1085; Postoperative Management 1085; Infections 1086; Anesthesia in a Diabetic Patient 1086; General Anesthesia 1086; Special Situation 1086; Open Heart Surgery 1087; Emergency Surgery in a Diabetic with Ketoacidosis 1087; Laparoscopic Surgery 1087; Cesarean Section 1088

## SECTION 12: LIVING WITH DIABETES

- 82. Psychosocial Aspects of Diabetes ..... 1093**  
*GR Sridhar*  
 Psychology and Diabetes—A Historical Perspective 1094; Diabetes-care Providers 1094; Lifestyle and Behavior, Perception of Life 1094; Biopsychosocial Model of Diabetes Management 1095; Studies in Children with Type 1 Diabetes Mellitus 1100; Studies in Parents of Children with Type 1 Diabetes 1101; Studies in Type 2 Diabetes 1101; Psychological Factors in Childhood Diabetes 1102; Model for Living Effectively with Diabetes 1103
- 83. Psychiatric Problems in Diabetes ..... 1108**  
*MV Muraleedharan, GR Sridhar*  
 Coexistence of Diabetes and Psychiatric Illness 1108; Psychological Distress Caused by Screening and Diagnosis 1109; Management of Common Mental Problems 1109; Psychiatric Comorbidity in Type 1 Diabetes 1112
- 84. Economic Aspects, Insurance Driving and Employment Problems in Diabetics ..... 1116**  
*DK Hazra, S Sarin*  
 Diabetes and Life Insurance 1116; Diabetes and Personal Insurance 1117; Medical Infirmities and Driving Restrictions Under Insurance Policies 1118

## SECTION 13: HEALTH CARE DELIVERY

- 85. Organizing a Diabetes Clinic ..... 1125**  
*Anant Nigam, SV Madhu*  
 Rationale of Organized Diabetes Care 1125; Components of a Diabetes Clinic 1126; Improved Diabetes Care in Practice—The Organization Process 1127; How Does Organized Diabetes Care Become Effective? 1128; Follow Evidence-based Clinical Guidelines 1128; Guideline Implementation 1129; Patient Self-management Program 1129; Advantages of Organized Diabetes Care 1129; Impact of Organized Diabetes Clinic Care on Various Health Care Practices 1130; A Day at the Diabetes Clinic 1130
- 86. Computers in Diabetes Management ..... 1133**  
*GR Sridhar, PV Rao*  
 Electronic Medical Records 1133; Linking Electronic Medical Records to Hospital Information System 1135; Scope And Limitations of Electronic Medical Records and Hospital Information System 1137; Accessing Medical Information 1137; Bioinformatics 1138
- 87. Organization of Health Care for Persons with Diabetes ..... 1140**  
*Vijay Panikar*  
 The Saint Vincent Declaration 1140; Diabetes Patient Education 1143; Problems in India 1143; Proposed Approach to Diabetes Care in India 1144
- 88. Role of Primary Care Physicians ..... 1145**  
*GS Sainani, Rajesh G Sainani*  
 Recommended Standards of Medical Care for Diabetic Patients 1146; Role of Dietitian 1146; Self Management 1146; Patient Education 1146; Lacunae in Medical Care 1146; Primary Care-based Models 1147; Primary Care Setting 1147
- 89. Role of Paramedical Personnel ..... 1149**  
*SV Madhu*  
 Needs of People with Diabetes 1150; Paramedical Personnel and Strict Glycemic Control 1150; Concept of Self Care and Self-management 1151; Diabetes Health Care Teams 1151; Role of Diabetes Educator in Diabetes Management 1152; Role of the Dietitian in Diabetes Management 1153; Role of the Nursing Personnel in Diabetes Management 1154; Empowering the Paramedical Personnel 1154

## SECTION 14: PREVENTION

<b>90. Prediction and Prevention of Type 1 Diabetes .....</b>	<b>1159</b>
<i>CB Sanjeevi</i>	
Immune and Genetic Markers Used in Prediction of Type 1 Diabetes 1160; Prediction of Type 1 Diabetes 1160; Risk Groups Likely to Benefit from Prevention Approach 1161; Prevention Trials 1161; Vaccine Strategies for the Prevention of Type 1 Diabetes 1162	
<b>91. Prevention of Type 2 Diabetes .....</b>	<b>1166</b>
<i>Hemraj B Chandalia</i>	
Target Population 1166; Diabetes Prevention Studies 1166; Lessons from Epidemiology 1168; Preferred Strategy for Prevention 1168	
<b>92. Prevention of Diabetes—Indian Angle .....</b>	<b>1170</b>
<i>A Ramachandran</i>	
Primary Prevention of Diabetes 1171; Impaired Glucose Tolerance (IGT) and Impaired Fasting Glucose (IFG) 1169; Secondary Prevention 1173	
<b>93. Youth-onset Diabetes in India: Nature of Diabetes and Use of Bovine Insulin in their Treatment .....</b>	<b>1177</b>
<i>N Kochupillai, R Goswami</i>	
Subtypes of Youth-onset Diabetes in Northern India 1177; Insulin Antibody Response to Bovine Insulin Therapy and its Functional Significance Among Insulin Requiring Young Diabetics in India 1179	
<b>94. Prevention of Complications of Diabetes .....</b>	<b>1180</b>
<i>V Mohan, R Deepa</i>	
Prevalence of Microvascular Complications in Indian Population 1180; Prevalence of Macrovascular Complications in Indian Population 1181; Diabetes Complications—Economic Burden 1181; Prevention of Complications 1181; Future Perspectives 1190	
<b>95. Glimpse into the Future .....</b>	<b>1196</b>
<i>Hemraj B Chandalia, Shaival H Chandalia</i>	
Etiopathogenesis 1196; Self-monitoring of Blood Glucose and Glucose Sensors 1199; Therapy of Diabetes 1199; Complications of Diabetes 1207	
<i>Appendix .....</i>	<i>A1–A8</i>
<i>Index .....</i>	<i>I1–I28</i>
